**ANNUAL AHERA\ASBESTOS NOTIFICATION REQUIREMENTS
TO: PARENT/LEGAL GUARDIANS/TEACHERS
EMPLOYEES/ORGANIZATIONS**

This notification is provided pursuant to the requirements of the Asbestos Hazardous Emergency Response Act (AHERA) of October 1986; EPA Rule 40 CFR 763, Asbestos Containing Material in Schools, subpart E, et seq. effective December 14, 1987. These regulations are defined by the United States Environmental Protection Agency. Specifically, 40 CFR §763.84 (c), which requires that the Clayton County Public Schools notify you at least once a year of asbestos inspections, response actions, and any post response action activities, including periodic re-inspections and surveillance activities that are planned or in progress at our schools and administrative facilities.

The Clayton County Public Schools has documented through a comprehensive asbestos survey, conducted by an AHERA accredited asbestos inspector, where asbestos containing, suspect asbestos containing and/or assumed asbestos containing building materials are located in our schools and administrative facilities. The Asbestos Management Plan documents a plan of action for managing and maintaining the asbestos containing building materials in-place and/or removal activities. The reports associated with the asbestos inspection, 3-year re-inspections, periodic surveillances, and the recommendations from Operations and Maintenance, are documented in the Asbestos Management Plan. A copy of said plan is available at each school and at the Maintenance Department.

Please contact the Clayton County Public Schools Maintenance Department at 770-473-2825 with questions or requests for additional information.
